Sheets 48-017 and 48-018 provide Imperial Japanese Army Air Force and Naval aircraft national insignias (the *Hinomaru*) for a variety of popular types of aircraft. Both the solid red and the white outline varieties are provided, and for the A6M5, the more rarely seen black outline type is also included. Due to the constant disagreement as to the exact shade of red used by Japan for its national markings during WWII, we have catered to two possibilities by issuing the same subject matter in two distinct colors. This sheet represents the dull red color which might have weathered from the factory fresh shade of sheet 48-017 after some time in the field. As with all general sheets such as this, check your references carefully. Applications are as follows:

	Fuselage	Upper Wing	Lower Wing
Ki-27 Nate	A	D	D
Ki-43 Oscar	B/H	F/N	F
Ki-44 Tojo	C	D/L	D
